### COVID SAFE

We come to your work place and our set up and service is outside to protect your staff.

We set up our mobile kitchen and food display outside the workplace, we have screens on the display, once your staff have selected the meal it is placed at the end of the station for them to take away. Staff are asked to wear masks, stand 2 meters apart when queuing for food and if you have a large number of employees or team bubbles we recommend giving staff collection time slots - we can work with you to organise this.
